Announcement of Business Alliance with ST Electronics (Info-Comm Systems) Pte. Ltd.

SIIX Corporation (“SIIX”) hereby announces that it has concluded Strategic Partnership Agreement with ST Electronics (Info-Comm Systems) Pte. Ltd. (“STEE-InfoComm”) regarding the parties’ cooperation in the field of smart infrastructure management business.

1. Purpose of Alliance

It is recognized, all over the world, that the use of smart sensing, communication and control systems for the management of infrastructure of utilities has been well introduced, yet, current adoption rate of such system is still low and is expected to grow, from here on, rapidly at the annual rate of 20% or more in world-wide scale. SIIX has been active in the business of offering products and services related to smart meter system in South East Asia, and now, it is willing to expand its business in the field of smart infrastructure management by establishing strategic alliance with STEE-InfoComm.

STEE-InfoComm is a leading solution provider of Information Communications Technologies (“ICT”) in the Asia-Pacific region, whose core capabilities lie in the design, development of ICT solutions, having experience in the development of Communication Infrastructure Systems, Intelligent Road Transportation Systems and Smart City Systems. STEE-InfoComm is a wholly owned subsidiary of Singapore Technologies Electronics Limited, the electronics sector of Singapore Technologies Engineering Ltd., which is a public-listed company in Singapore Stock Exchange Market.

Under this strategic alliance, SIIX and STEE-InfoComm agree to utilize their expertise, resources and knowledge to explore this new business field, by STEE-InfoComm developing and designing the solutions and SIIX manufacturing the devices for the systems.
