Inquiries	Masaki Murakami Senior Managing Executive Officer, CSO & General Manager, Investor & Public Relations Department (TEL +81-6-6266-6413)

Announcement of attending the SMM 2nd ASEAN Automotive Supply Chain Conference

Yoshinobu Egawa, Executive Officer in charge of Greater China, participated as a guest speaker at the SMM 2nd ASEAN Automotive Supply Chain Conference held in Bangkok, Thailand on June 16-17, 2025.

As a global EMS company with a long-standing presence in Southeast Asia, we were honored to be the only Japanese company invited to this conference.

The summit brought together leading automotive OEMs and component suppliers from China, Southeast Asia, Europe and the United States, along with industry experts and government officials to discuss future development strategies for the ASEAN automotive sector. During a roundtable forum, Mr. Egawa shared our strategic vision, stating:

"We embrace market evolution by leveraging robust manufacturing expertise and technical know-how to serve customers. Our Business Continuity Planning (BCP) framework ensures resilient operations amid dynamic market conditions."

We remain committed to actively promoting our business strategies and core strengths through international conferences and other global platforms. Through these efforts, we aim to contribute to the continued growth and advancement of the automotive industry.
